

DESCRIPTION: # 90-4502 DRAIN PAN (Mini Mist, Residential & Commercial)

This universal Drain Pan is suggested as precautionary measure in the unlikely event of a plumbing leak.

DIMENSIONS: 10 3/4" x 22 3/4" x 2"

FITTING: 3/4" Threaded NPT Drain Fitting

INSTALLATION:

1. Place the Drain Pan on a level surface. (See the installation instructions for acceptable locations)
2. Place the Steam Generator evenly across the Drain Pan supports.
3. Using the 3/4" Fitting, plumb the drain line. Drain pipe must drain to a suitable receptor or outside the building. Check local plumbing code for suitable locations.
4. All plumbing must be done in accordance with national and local codes, by a licensed plumber.
5. Drain line should run in a downward slope as drain pans drain by gravity.
