

DESCRIPTION: **#90-4210 Remote Deluxe Timer Thermostat 30'**
 #90-4215 Remote Deluxe Timer Thermostat 8'

The Remote Thermostat is used with the low voltage Deluxe 60 minute Digital Timer and supports a temperature range up to 120°.

SENSOR MOUNTING

Mount the sensor where it will be unaffected by heat/cool discharge or radiated heat sources. Spot sensing requires the sensor to be in good contact with the surface being sensed. The sensor can be inserted in a 5/16" bulb well.
